Audi Corporate Programme

Audi
Malaysia

Volkswagen Group Malaysia
Wisma Volkswagen
No. 7, Lorong Maarof
59100 Kuala Lumpur

For over a hundred years, Audi has been at the forefront of motoring innovation, creating sophisticated vehicles that combine advanced technology, groundbreaking design and a progressive mindset. Whether it's on the track or on the road, Audi's ongoing success is built on the core value of 'Vorsprung durch Technik', which loosely translates to 'Advancement through technology' and represents our enthusiasm and commitment to continuously improve in everything that we do.

We would now like to invite the members of Malaysian Medical Association (MMA) to be part of our tradition of excellence.

Welcome to the Audi Malaysia Corporate Programme.

As one of our preferred association, you are eligible to be part of our exclusive program with unique benefits.

These benefits include: -

1. Corporate discount of 8% off the nett selling price for all Audi models. These benefits are extended to the spouse and immediate family members as well.
2. Two years or 60,000km schedule complimentary maintenance package (whichever comes first).
3. Courtesy Car Program – Corporate fleet partners will be prioritized for a courtesy car should your vehicle require extended maintenance/repair.
4. Special invitations to Audi events and launches.

As you can see the Audi Malaysia Corporate Program provides an excellent starting point to the full range of products and services that Audi Malaysia has to offer; rest assured, we are continuing to develop this programme and will keep you posted on the latest benefits as we introduce them. For instance as of April 1st 2017 all our models now come with **5 years/unlimited mileage warranty**.

We, at the Corporate Sales team look forward to hearing from you at corporate@audi.com.my should you need any further information on the program or Audi's award-winning range of vehicles.

Thank you.

Yours sincerely,

Amir Azman
