

**Alan Tay** is a proud native of Melaka, having been born and raised in this historic city. Growing up in such a culturally rich environment has instilled a deep appreciation for history and arts in him.

Another passion of Alan is cycling. He has been actively cycling for a decade now, and it has become an integral part of his lifestyle. Cycling allows him to not only stay active and healthy, but also explore the outdoors and appreciate the natural beauty of the world around him.

Overall, he consider himself to be an open-minded person who is always looking for new challenges and opportunities to push his limits on the bike. He was one of the riders for Cycle for Cancer 2022, help raise awareness and funds for National Cancer Council (MAKNA). He is looking forward in exploring the beautiful land of Boneo once again in July, and continuing to pursue his love of cycling.
