WHY DEPUTY SECRETARY

Because the role demands someone who has already done the job.

The Deputy Secretary safeguards MMA's institutional memory – its constitutions, minutes, correspondence and continuity. I have held secretary-level office at branch, national and committee level for over a decade, and I ask for your trust to carry that governance forward.

Governance & Documentation

Authored a chapter in the recently published Health, Harapan And Healing Malaysia; as well as the updated (2026) MMA SCHOMOS Guidebook – turning policy into usable, lasting record.

Institutional Continuity

Served as Secretary at MMA Perak Branch, SCHOMOS and the National AGM levels across three separate terms – administration that outlasts any one office-bearer.

Programme Delivery at Scale

Architect of the MMA's Welcome On-Board Doctors Programme (8 states covered; an initiative that continues to gather momentum) and MMA's Career Guidance Conferences (collaborating with 12+ national organisations) – proof that good record-keeping translates into action.

As Your Deputy Secretary, I Will:

- Strengthen governance and institutional memory
- Champion our profession's voice
- Develop tomorrow's leaders

Closing

A Deputy Secretary's work is measured in what gets recorded, remembered and followed through – not in speeches. I've spent 18 years doing exactly that for MMA. I ask for your vote to keep that continuity moving forward, together.
