Sleek & Sophisticated Space

Journey to a revolutionary realm of space with STARIA,
where endless possibilities and sheer comfort await in an icon that redefines MPV driving.

STARIA

The futuristic STARIA elevates MPV driving to soaring new heights, with its comfortable open spaces and suite of smart technologies truly defining it as a lounge of luxury on wheels.

7-Seater

STARIA hosts an assortment of features that serve to completely enhance your driving experience.

Proximity sensors can open and close the doors and tailgate automatically, long sliding seats provide superb spatial flexibility and the BOSE premium sound system allows you to listen to every melody and beat in crisp quality.

Smart Power Sliding Door

No hands, no button pressing required. The smart door senses your presence and slides open automatically (as long as the smart key is on your person).

Long Sliding Seats

Increasing the range of the to-and-fro motion of the rear seat makes it easy to create extra luggage space and helps passengers get in and out more easily.

Smart Power Tailgate (with auto-close function)

If you can't reach into your pocket for your smart key because your hands are full, STARIA's smart power tailgate does all the work for you by automatically opening as you approach the vehicle and automatically closing as you walk away.

BOSE Premium Sound System

Bose speakers create a truly immersive sound experience and include dynamic speed compensation to automatically calibrate speaker volume according to your driving speed.

Premium Relaxation Seats

Take your levels of comfort even further with our Premium Relaxation Seats, which can redistribute your bodyweight to make you feel like you're floating in the air while also keeping you at a soothing temperature with 3-stage heating and ventilation functions, all at a push of a button.

The 2-way backrest, 2-way seat cushion and 4-way legrest are also individually adjustable to suit any preference and situation.

10-Seater

STARIA comes packed with an assortment of smart features, each providing you practical and convenient perks that only serve to elevate your driving experience. Enjoy proximity-activated sliding doors, abundant storage space and even a surround view monitor to help with parking and surrounding traffic.

Smart Power Sliding Door

Upon sensing the presence of the proximity key, the smart door automatically slides itself open after a pre-set interval—a very convenient feature when your hands are full.

Long Sliding Seats

Increasing the range of the to-and-fro motion of the rear seat makes it easy to create extra luggage space and helps passengers get in and out more easily.

Smart Power Tailgate (with auto-close function)

With the smart key and new proximity sensor, tailgate operation is truly smart and hands-free: it opens and closes automatically without requiring any driver input whatsoever.

Surround View Monitor

Surround View Monitor displays video of the situation around the vehicle for safe parking.

Drive with Confidence

Hit the road with no worries with STARIA, as its powerful performance and sophisticated safety systems ensure you can keep moving ahead even in poor weather conditions. Regardless of your choice of engine or gearbox, STARIA's new and improved powertrains will give you the rush you need to power on through.

HyundaiSmartSense

Forward Collision-Avoidance Assist (FCA)

If there's a danger of a collision with a car, pedestrian, or cyclist, FCA provides an early warning and, if necessary, it automatically brakes for you. It also detects oncoming vehicles at intersections to promote safer left turns.

Lane Keeping Assist (LKA)

A front view camera detects lane markers and road edges helping prevent unintentional lane departures. When the vehicle strays from its lane (or road), the system sets off a visual and sound alarm and automatically steer the vehicle to prevent it from moving out of its lane (or road).

Blind-Spot Collision Warning (BCW)

When operating the turn signal switch to change lanes, if there is a risk of collision with a rear side vehicle, the system provides a warning. After the warning, if the risk of collision increases, the function automatically controls the vehicle to help avoid a collision. If exiting a parallel parking spot and there is a risk of collision with a rear side vehicle, the function automatically assists with emergency braking.

Safe Exit Assist (SEA)

When the occupant opens the door to exit the vehicle after a stop, if an approaching vehicle from the rear side is detected, the function provides a warning. The function also helps keep the rear door closed through operation of the power sliding door.

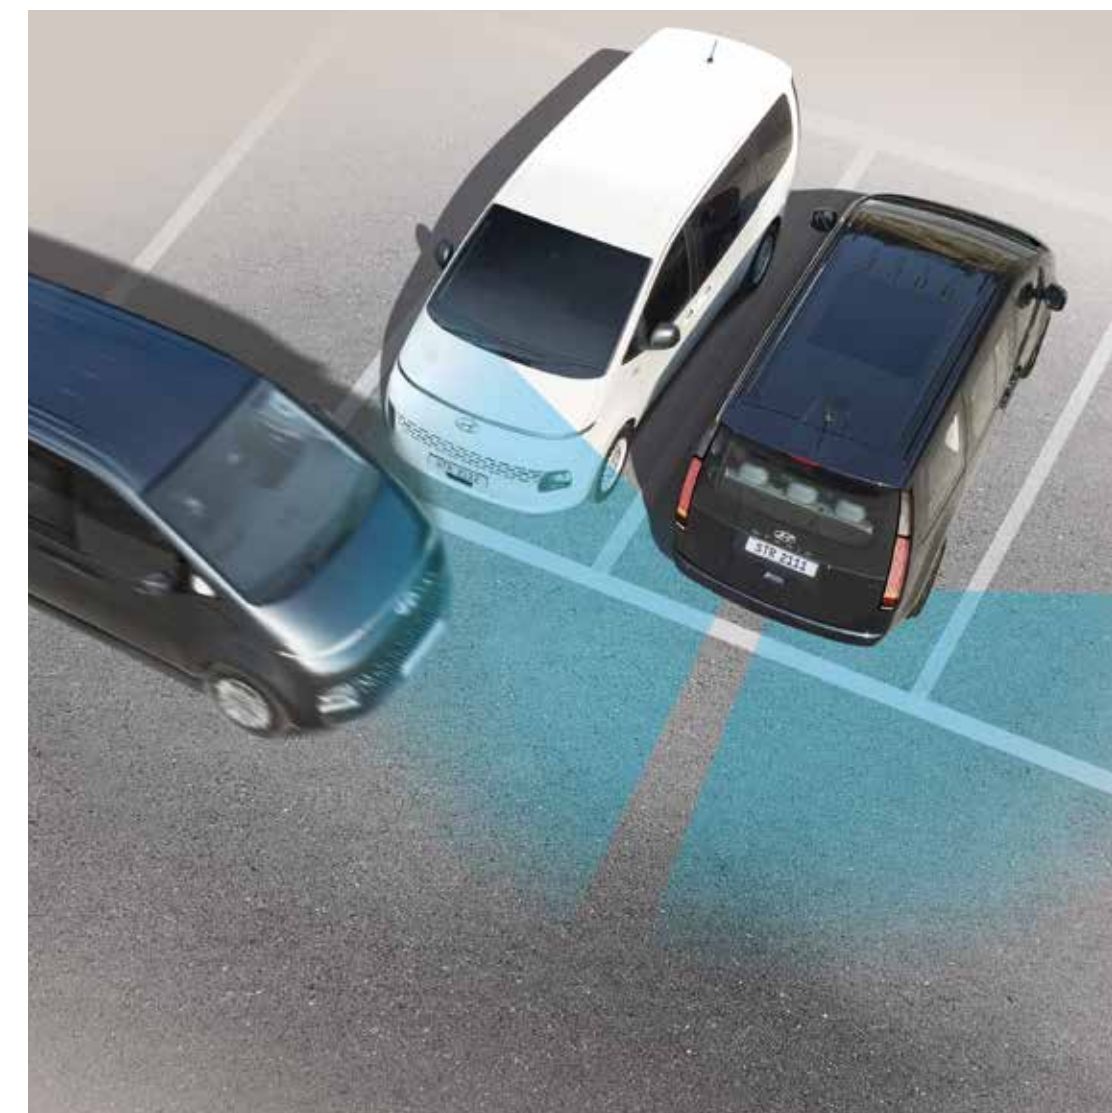

Smart Cruise Control (SCC)

Smart Cruise Control helps maintain distance from the vehicle ahead and drive at a speed, set by the driver.

Lane Following Assist (LFA)

A front camera tracks the lane markers and helps keep the vehicle safely centered within the lane.

Blind-Spot Collision-Avoidance Assist (BCA)

BCA warns of the approach of a vehicle across the rearward path when reversing and, if necessary, emergency braking is applied.

Overall Features
