# Don't Miss It! Expert-Led Webinar on Approach to headaches: Pain Management Initiatives and Catching Red Flags

31st March Tuesday 6:00 - 8:00 PM (GMT+8)

[Register Now](#)

13 DAYS : 06 HOURS : 02 MINUTES : 44 SECONDS

Headache disorders are among the most common clinical presentations in both primary care and specialty practice.

Clinicians are therefore required to balance appropriate reassurance with clinical vigilance, ensuring early recognition of high-risk presentations while avoiding unnecessary investigations.

### Why Attend This Webinar?

Recognise warning signs that require urgent imaging or specialist referral.

Communicate risk effectively during patient consultations.
