PROTECTION FOR A LIFETIME

medicalprotection.org

AN ORGANISATION THAT'S HERE FOR YOU

For more than 40 years we have been a trusted and leading provider of medical protection for doctors and medical professionals. Today, we are proud to offer advice, support and defence to more than 10,000 healthcare professionals across Malaysia.

We understand the challenges that medical professionals face, and this experience means that we are best placed to provide clarity for you in what is often a complex and unpredictable environment. We understand the pressures associated with changing reforms and the strain created by the increased scrutiny of the medical profession, but with healthcare professionals at the core of our team, we are here to help you understand and navigate this new landscape and the ongoing challenges of modern practice.

Over and above protection, we use our experience and judgment to offer a flexible range of benefits and practical skills through our comprehensive education faculty - offering risk management workshops, online learning and free education events.

We have stood alongside our members in Malaysia for many years, weathering the good times and the bad when others have not, and as the world changes around us, this commitment to be partners will continue for decades to come.

WE'RE WITH YOU EVERY STEP OF THE WAY

Being a member of Medical Protection, you are part of a not-for-profit organisation whose sole focus is on supporting and protecting members throughout their careers. Our world-class defence and expert guidance is always at hand to allow you to practise with confidence; including our medicolegal advice line, open around the clock in an emergency.

Our Workshops and online learning are free for you as a member and give you the opportunity to develop the skills needed to navigate through the many medicolegal challenges and tackle issues before they arise.

See below how your membership can give you a lifetime of protection.

DEFENCE

- Right to request indemnity for clinical negligence claims arising from your private practice
- Represent you during Medical Council investigations
- Assist with the preparation for disciplinary hearings when of a clinical nature, and the compiling of reports
- Offer protection for Good Samaritan Acts
- Help you manage unwanted media attention

SUPPORT

- Free online learning modules
- Flagship journal Casebook
- Medicolegal talks and conferences
- Independent and confidential counselling service

ADVICE

- An emergency advice line available 24/7
- Help responding to patient complaints
- Real life medicolegal case reports
- Medicolegal factsheets on common concerns
