

Vincent Lee – From Singapore.

Bought his first road bike in 2005 in order to get into triathlon after being inspired by kids and amputees competing in a triathlon race.

Prior to road bike, Vincent has been cycling exclusively on mountain bike for over 10 years. His first charity ride came in 2004 while working in Shanghai. Together with another Singaporean, they set off to raise funds for a Children Cancer Foundation in Shanghai and Club Rainbow in Singapore.

Vincent is no stranger to long rides. Having taken part in AWOL rides in Thailand since 2019 and the first Cycle for Cancer ride in Borneo in 2022, Vincent has made friends with fellow cyclists from all over the world.

Looking forward to the start in Kuching in July 2023, where Vincent will be meeting familiar faces and making new friends.
