# Welcome to
# IJN-CRRC+ Program
# Dyslipidaemia
## Live Expert Sessions

**Greetings,**

We are pleased to invite you to the **"Dyslipidaemia Live Expert Session"** as part of the **IJN CRRC+** program, designed to reduce cardiovascular risk and improve patient outcomes by addressing key factors such as dyslipidaemia, hypertension, diabetes and obesity.

The **"Dyslipidaemia Live Expert Session"** is a scientific educational program comprising five live webinars and discussions. These five live webinars cover topics such as lipid screening and cardiovascular risk stratification, dyslipidaemia management and treatments, lipid clinic operations and patient communication.

The fifth webinar will offer expert insights **into the introduction, diagnosis and management of familial hypercholesterolemia, along with genetic testing and screening of inherited lipid disorders.**

## Webinar 5: Familial Hypercholesterolaemia: Closing the Gap in Detection and Care
